

# FINDING COMMON PURPOSE

Finding Common Purpose promotes and supports local efforts that are building a new social contract by bringing the public, private, and nonprofit sectors together to work with communities to meet basic needs and reduce disparities along the Pathway to Lifelong Success from a healthy birth, to a quality education, to getting and keeping a good-paying job, and to healthy and secure aging.

To date, we have identified more than 300 Pathway to Lifelong Success Initiatives (PLSIs) and 12 Pathway to Lifelong Success Networks (PLSNs) in 44 states (see below for a list).

## What are Pathway to Lifelong Success Initiatives?

- PLSIs focus on improving lives in one or more stages of the Pathway to Lifelong Success, and recognize the importance of meeting basic needs.
- PLSIs seek population-level change in a specific area while reducing disparities based on race, gender, and/or geography.
- PLSIs facilitate public, private, and nonprofit sectors working with community members.

## What are Pathway to Lifelong Success Networks?

- PLSNs provide ongoing support to a group of PLSIs, including technical assistance, peer learning, and providing tools and templates to providing funding.

## Pathway to Lifelong Success Networks

By All Means/ Children's Cabinet Network  
EC-LINC  
My Brother's Keeper  
Pathway to Prosperity  
Promise Neighborhoods

Purpose Built Communities  
Say Yes to Education National  
Strive Together Network  
Urban Strategies Inc

If you would like your network to be considered to be added to this list, please email us at [info@findingcommonpurpose.org](mailto:info@findingcommonpurpose.org).

*Finding Common Purpose is a national, nonpartisan think tank reframing success that puts people first through a new social contract for the 21st century between institutions and the people they serve. The foundation for this social contract is the Pathway to Lifelong Success, from a healthy birth, to a quality education, to getting and keeping a good-paying job, and to healthy and secure aging.*
